

New Field Information Sheet

Farm Name:
Producer Name(s):
Year:

Vermont Organic Farmers Verification of 3-Year History of New Fields

This form is to be used by certified producers wishing to add a new field to their certification. This form should be used to verify the previous managers or owners use of inputs that have been applied to the land during the last three years.

Name of Previous Land Manager or Owner of New Field: _____

Phone Number or Best Contact of Previous Land Manager or Owner of New Field: _____

Field Name or Identification	Acreage

I verify that the above fields have been under my management and that they have had no materials prohibited by the USDA National Organic Program applied to them for the last three years.

Signature of Land Owner/Manager: _____ Date: _____

This form must be accompanied with a map showing the borders of fields, buffer zones, waterways, and descriptions of adjoining land-use.

New Field Information Sheet

Farm Name:
 Producer Name(s):
 Year:

First Year Applicants: Please fill out a following table for **each** field in organic production. The field name/number should correspond to the fields listed in your application and on your farm map.

Renewal Applicants: Fill out this form for each **new** or **changed** field since last year's application. The field name/number should correspond to the fields listed in your application and on your farm map.
